

## Disciple-Making Movement (DMM) Speeding Up

The Good News is spreading fast. Our monthly tracking system for our Hope and Grace Disciple-Making Movement is now showing multiplication of groups, not just adding of groups. These are new believers in new groups. **We have over 475 groups now with more than 4500 people meeting weekly, mostly new believers and God is causing new areas of Uganda and language groups to hear the Good News.**

## Hope and Grace Churches

Three young pastors of camp or town churches are also DMM leaders and trainers of others. They have some long rides on muddy roads. **Please keep them in prayer.**

We are trying to keep going, help our main trainers do more in mentoring other trainers and also begin monitoring the growth of new believers in our churches which are also expanding.

**There are about 42 churches now.** We're actually trying to have groups finish the basic discipling lessons before they start churches so that the churches will also have the "Go to them" DNA continuing. The church is His body and like Jesus we want to seek and save the lost and train disciples who will likewise train others.

## Camp Church

We have many churches in the camps. More churches than buildings.

Many still meet under a tree which is tough in the rainy season.

## Miraculous Progression

Last year in June, Chandiga Norbert from South Sudan, who is living in a refugee camp because of the war, came to our crusade in Pagarinya Camp.

There he heard the Good News and found Jesus as his Savior. Norbert was water baptized and began to be discipled in one of our DMM groups.

He started sharing the Good News and is now leading 4 DMM groups of other new believers!

Just recently, Norbert and some people from his group went out in the camp sharing the Gospel. He was told about an older lady in her 60's (that seems so old to these people). The woman was crippled and not doing well. So he went to pray for her. All her physical suffering stemmed from an accident to her back when she was very young that left her crippled since then. She had suffered much pain all those years and found it very difficult to walk, and could only stand with the aid of a crutch. She had been to a number of clinics and doctors without any help.

Norbert and his team found her and began to pray. Then Norbert helped her to stand and she began to walk and move about easily, it was obvious that something great had happened, and they all rejoiced together.

**This story is like Peter and John with the lame man in the book of Acts chapter three!**

So.....she joyfully gave her crutch to Norbert who gave it to his DMM trainer who brought it to the office and shared the testimony behind the crutch!

**Wow!**

- Saved in a crusade
- Trained in a DMM group
- Leading 4 groups
- Goes to crippled lady who finds Christ
- Has Faith for healing miracle
- And sees her family members find Christ

God is doing great things in lives in the refugee camps and the Good News is spreading...

## Faith and Boldness in Action

Moses, a government soldier and minister with Hope and Grace is in the Medical Corp in Juba, the capitol of South Sudan treating and counseling HIV/Aids patients, etc. in the military hospital.

Moses is a quiet giant in the faith, having seen thousands of salvations both in and out of the military. Whenever he is able to come down for a visit we hear the most amazing stories...

Recently, as the HIV/Aids patients were waiting in a big hall outside his office for their appointments. Sharing the same waiting room there was a large number of pregnant women waiting in the same hall to see the doctors. When Moses saw this big crowd of people waiting, he felt urged by the Lord to speak particularly to the women. After getting permission

from the Commander of that department, he realized that these women had a great deal of fear.

That day Moses as he ministered to them, he saw 30 pregnant women come to the Lord. It brought them great relief and peace.

The led to Moses starting new chapel services in the military hospital for out-patients (both HIV/Aids and Maternity plus many of the medical staff every Monday-Wednesday and Friday!

Moses uses Hope and Grace materials to share the Good News and Disciple new believers. Plus he uses our HIV/AIDS and Alcholism and First Steps brochures to minister to people.

Moses also teaches English in the military primary school on the base.

God has his people in amazing places.

Moses has led 365 people to Lord in the last three months.

## Morobi Camp Crusade Needs Your Prayers

This month from May 21-24 Hope and Grace is partnering with a Swedish team and Evangelist Tobias Almhil for another crusade and leaders' conference in the Morobi refugee camp. We are believing for thousands of salvations, deliverances and healing in the afternoon crusades.

In the mornings, our Hope and Grace church will see pastors and DMM leaders come together for a leadership conference. We are looking for these camp pastors to have a time of refreshing and spiritual impartation.

Please pray for our teams, the crusade, and the leadership conference! Undertaking these things in a camp seems to loose lots of spiritual opposition but we know the Lord will win out! Please pray for everyone's health, our unity, and perseverance.

Our DMM leaders are prepared to follow-up new believer from the crusade, baptizing them and getting them established in discipling groups.

## Help us take our leaders to... DMM Trainers Camp

We have been invited to take our 3 top Disciple-Making Leaders with us to a training camp for Disciple-Making Movements in Nairobi, Kenya in June. Our own Hope and Grace movement is advancing quickly.

These meetings are with the 24:14 coalition and will have speakers from various very fruitful DMM ministry. They will also be focusing on East Africa. The training will be very practical for us and allow us to find out how others are doing it!

Could you help us financially to be able to attend?

## Great News Partnership

*We are multiplying trainers, new believers, new groups and new disciples. We need your help to keep up financially with the acceleration!*

*Please consider giving to bring Great News to more people here with Hope and Grace!*

*Thank You!*

*Gary & Louise Short and all of our African Team*

- You can **give online** by clicking on the 'GREAT NEWS!' picture below to give by PayPal on our website at Hope and Grace International.
- Or you can **mail your gift** to:

**Hope and Grace International**
